Vinicius de Moura Avemaria

Tramandaí, RS, Brazil | +55 (51) 99521-1564 | viniciusmavemaria@gmail.com
GitHub | Portfólio | LinkedIn

Software Engineering student with a solid foundation in full-stack development and advanced English proficiency gained through six years living in Australia. Seeking an internship or junior software development position, contributing to scalable solutions while continuously learning and collaborating in agile teams. Available for on-site or remote work.

Education

Dev Full Stack Junior Training | 220h of live classes
+praTi | 04/2025 – 11/2025

Intensive full-stack development training covering computing fundamentals, HTML, CSS, JavaScript, React, backend with Java and Spring, relational databases (MySQL/PostgreSQL), DevOps practices, and an introduction to Artificial Intelligence.

Key skills developed:
- Object-oriented programming and creation of RESTful APIs;
- Code versioning with Git/GitHub and application deployment on Vercel;
- Collaborative development of practical projects (SPA, API, and full-stack application with AI);
- Technical communication, problem-solving, and project presentations.

Bachelor's Degree in Software Engineering
Anhanguera Educacional | 2025 – Present

Diploma in Information and Communication Technology (Australia)
Murdoch Institute of Technology – Perth, Australia | 2019 – 2021

- Coursework included theoretical and practical foundations of computing, with subjects such as Principles of Computer Science, Discrete Mathematics, Fundamentals of Computer Systems (Java), Programming Foundations (C), Data Communications, and Digital Media.

Certificate III in Commercial Cookery
Stanley College – Perth, Australia | 2017 – 2018

Personal Projects

Core Tech Store - Link

Conceptual electronics e-commerce project featuring a product catalog, detailed product pages, user authentication, shopping cart, order history, and review system. Includes an administrative dashboard with full product CRUD operations, CSV import functionality, and complete order management. Built with React.js and Tailwind on the front end, Spring Boot on the back end, and PostgreSQL as the database. Deployed on Vercel (front end), Render (API), and Neon (database).

Movie API App - Link

React-based application developed during the +PraTi Dev Full Stack Junior program. Allows users to search for movies, view details, and create a favorites list, consuming the public OMDb API.

To-Do List - Link

A simple web application for task management, allowing users to add, edit, delete, mark as completed, and filter tasks. Built with pure HTML, CSS, and JavaScript, demonstrating DOM manipulation, events, and local persistence using LocalStorage.

Personal Portfolio - Link

Bilingual website (PT/EN) with dark theme, responsive design, and dynamic language switching via JavaScript. Built with pure HTML, CSS, and JavaScript, showcasing DOM manipulation, responsive design best practices, and organized code structure.

Professional Experience

Intern – Four Points by Sheraton Hotel – Perth, Australia | 07/2018 – 10/2018
Activities:
- Supported kitchen staff and restaurant operations in an international environment;
- Developed teamwork, communication, and attention-to-detail skills;
- Multicultural experience with daily use of the English language.

Languages

General English Course – Advanced Level
Navitas English – Perth, Australia | 04/2017 – 09/2017
